RE: Recommended Contract Changes

Dear Dr. Briggs;

Within the last several weeks, we have received proposals from the contractors for the cost of the following modifications. With each proposal, we provide a synopsis of its scope and our review.

General Contract

- COR 008 – Generator Fencing \$3,451.93
 - Fencing is included in the project surrounding the playground. The generator sits within the confines of that fence, however, during construction the district decided that addition fencing would be desired on the remaining 3 sides of the generator.
 - We find the proposal for additional length of chain link fencing to be reasonable and take no exception to its approval.

- COR 010 – Window sills at translucent panels \$17,986.08
 - The window sills where the translucent panels become glass windows were originally planned to be removed and reinstalled. However, when the sills were removed to do the work, they could not be removed in one piece and broke into pieces due to the existing adhesive.
 - At \$300 each, we take no exception to the proposal to replace the sills at these 53 locations and take no exception to its approval.

The above proposals have been prepared as separate change orders, **G-006 and G-007**.

Note that change order G-005 for additional floor coverings requested by the Owner for the school office and nurse's office was reviewed and processed via email in July.

HVAC Contract

- COR 015 – Condensate pumps and shut down controls \$4,841.71
- We take no exception to the proposal for Phase 3 & 4 work similar to that of COR 007 for Phase 1A and COR 011 for Phase 2 (change orders H-005 and H-006). The tight fit of equipment and pipes above the corridor ceiling did not allow sufficient slope for the blower coil unit condensate pipes to allow them to drain by gravity. As a result, additional pumps were needed. The pumps will be wired to the condensate high water level switch to the blower coils, so that the blower coil will shut off when the condensate pump high water level alarm sounds. The building control system will be notified.

The above proposal is the extent of change order **H-009**.

Note that change order H-008 for roof duct supports was reviewed and processed via email in July.

Electrical Contract

- COR 9 – Raceway and light circuit relocation \$3,737.85
 - Like the work completed under Phase 1, 2 and 3 renovations, this proposal is for work to relocate and install new raceway & light circuits in the existing first floor corridor C101, and rooms 200C, 115, 105, 107, storage of Phase 4 in order to make work accessible for the installation of new duct work. Similar to change orders E-002, 003 and 004, the work was done on a time and material basis.
 - We take no exception to the proposal and recommend approval.
- COR 11 –PVC conduit, new breakers, security panel relocation \$4,380.13
 - Per the owner's request, a 1" PVC conduit was run from the building to the new water main vault. Also, the EC provided a new 50-amp and 40-amp breaker for the DOAS and coolant pumps since there were no existing breakers available. In addition, the EC relocated the security entry panel in vestibule 102 which was in the way of other MEP installations. This work was done on a time and material basis.
 - We take no exception to the proposal and recommend approval.

The above proposals have been prepared as change order, **E-006**.

For the above listed General, HVAC and Electrical contract items, we have processed a change order for each prime contract on AIA Document G701-2017. When you are able, please sign the change orders acknowledging your acceptance, and then return to us for further processing. We will send a final copy to you when they are fully executed by the contractors.

We have also attached and updated the project change order log that shows the status of each contract to date, as well as potential future change orders that we have been made aware of. In addition, the log includes a summary page that compares the change in cost to the contingency fund established during the Act 34 Hearing. Currently, the total project cost change with the above change orders included is a net add of \$581,791.93.

AEDY Basic Education Circular (BEC) Rules and Regs

<https://www.education.pa.gov/Policy-Funding/BECs/Purdons/Pages/Alternative-Education-for-Disruptive-Youth.aspx>

AEDY programs are designed for seriously and persistently disruptive students. By law, LEAs may refer to AEDY programs only students who pose a clear threat to the safety and welfare of other students or the school staff, who create an unsafe school environment or whose behavior materially interferes with the learning of other students or disrupts the overall educational process. The "disruptive" student will exhibit to a marked degree any or all of the following conditions:

1. disregard for school authority, including persistent violation of school policy and rules;
2. display or use of controlled substances on school property or during school activities;
3. violent or threatening behavior on school property or during school-affiliated activities;
4. possession of a weapon on school property, as defined under 18 Pa. C.S. §912;
5. commission of a criminal act on school property or during school-affiliated activities and,
6. misconduct that would merit suspension or expulsion under school policy.

Only students in grades 6-12 are eligible for placement in an AEDY Program. Placement in an AEDY program should be considered only after all other options for improving behavior have been exhausted. This includes the use of the school's Student Assistance Program (SAP). The exceptions to the above statement are:

Policy violations involving drugs, weapons, or violent behavior towards others.

QUESTIONS?

A photograph showing a group of children sitting on a paved surface, using colorful chalk to draw various shapes and designs. One child in a bright yellow shirt is prominently featured in the center, leaning over their work. Other children are visible around them, also engaged in drawing. The scene is outdoors and appears to be a creative activity.
